

State Water Reuse Contacts List

This contacts list was compiled to help enhance state collaboration on water reuse as part of Action 2.2 of the National Water Reuse Action Plan (WRAP). The list presents contact information for state staff members involved in water reuse across the country to help facilitate networking and information sharing opportunities among state staff and programs.

Please note that this list is not comprehensive of all state staff involved in water reuse and due to staffing and/or program changes it may not reflect current conditions across all states. WRAP Action 2.2 leaders and partners plan to reevaluate this list periodically and may make updates based on information provided by states.
